

TITAN 3000

SMART DATA LOGGERS

SMART DATA LOGGING SYSTEMS

The TITAN 3000 Series of Smart Data Loggers provide a robust platform for intelligent systems installed on a range of equipment, including

- Draglines
- Rope shovels
- Hydraulic shovels
- Excavators
- Stacker/Reclaimers
- Ship loaders

The intelligent systems include

- Structural monitoring, including fatigue
- Production logging
- Digital Terrain Mapping
- Rope position sensing
- Ground Slippage
- Condition Monitoring
