Project Services

Service
Brochure

LC Engineering has a highly skilled resource pool and a great deal of real world expertise. With our project services you and your customers will enjoy:

- Cost-effective services
- A highly efficient approach, driven by proven and repeatable methodologies
- Market-leading quality, founded on 21 years' hands on experience
- Multi-skilled resources at your disposal exactly when you need them

Our full range of services include:

Transitions – where you fully outsource service delivery to us

Audits and asset information collection – collation and reporting on the location, condition and quantity of hardware at customer sites

Deployments – installing new equipment

Resource supply – we provide expert resource, from engineers to project managers

Our project managers will ensure that projects are carried out to our clients' exact requirements, and comply fully with all statutory requirements and health and safety. They act as a single point of contact, and are personally empowered and accountable for the delivery of the project and the ongoing partnership with the customer.
